

PRODUCT INFORMATION SHEET

Product Group: Acalypha	Acalypha Stephe (Acalypha reptans)
Description:	An evergreen, trailing plant grown for it's unusual, tassel like crimson flowers appearing mainly in summer and autumn.
Planting Position:	Ideal plant for garden or hanging baskets. Prefers a part shaded position free from draughts with filtered light in well drained soil. Temperature Range: 5° to 35°
Plant Size (approx):	25cm high x 50cm wide
Planting:	Dig a hole approximately twice the size of the container. Remove plant and place into the hole so the soil level is the same as the surrounding ground. Fill in the hole and push down firmly and water in thoroughly.
Fertilizing & Watering:	Fertilize monthly with liquid fertilizer. Keep well watered when in full growth less at other times and in low temperatures.
