

## PRODUCT INFORMATION SHEET

<b>Product Group: Choisya</b>	<b>Choisya Ternata (Mexican Orange Blossom)</b>
<b>Description:</b>	A rounded, evergreen shrub with deep green, aromatic foliage. Large clusters of sweetly scented, white flowers appear mainly in spring but repeat flowering may occur in summer. Good for hedges and screening.
<b>Planting Position:</b>	Thrives in a sunny to partly shaded position in moist, well drained soil. Tolerant of dry conditions and light frost. Plants respond well to pruning and shaping.  Temperature Range 5° to 35°
<b>Plant Size (approx):</b>	1.2m high x 1.2m wide
<b>Planting:</b>	Dig a hole approximately twice the size of the container. Remove plant and place into the hole so the soil level is the same as the surrounding ground. Fill in the hole and push down firmly and water in thoroughly.
<b>Fertilizing &amp; Watering:</b>	Fertilize in spring with a slow release fertilizer and water to keep moist in a pot situation.
