

PRODUCT INFORMATION SHEET

Product Group: Coprosma	Coprosma Inferno
Description:	Evergreen hardy compact growing shrub adding fantastic colour to the garden all year. During spring and summer the foliage has wonderful variegations of lime green edged in red. As the weather cools the colours change to brilliant pinks and deep red. Easy care.
Planting Position:	Great addition to any garden, as a hedge, or in a rockery. Grows in full sun will tolerate part shade and coastal conditions. Thrives in moist well drained soil. Temperature Range 7° to 37°
Plant Size (approx):	1.5m high x 1.5m wide
Planting:	Dig a hole approximately twice the size of the container. Remove plant and place into the hole so the soil level is the same as the surrounding ground. Fill in the hole and push down firmly and water in thoroughly.
Fertilizing & Watering:	Fertilize in spring with a slow release fertilizer and water to keep moist in a pot situation.
