|--|--|
| Product Group: Dieffenbachia | Dieffenbachia Compacta (maculata perfecta) |
| Description: | An ideal houseplant with a compact habit displaying showy, thickly textured attractive foliage that is green and speckled cream. Great in bathrooms. |
| Planting Position: | Prefers a warm humid position free from draughts with filtered light in well drained soil. Temperature Range: 10° to 30° |
| Plant Size (approx): | 30 - 50cm high x 15 - 30cm wide |
| Planting: | Dig a hole approximately twice the size of the container. Remove plant and place into the hole so the soil level is the same as the surrounding ground. Fill in the hole and push down firmly and water in thoroughly. |
| Fertilizing & Watering: | Apply slow release fertilizer two or three times a year. Keep moist in the summer and drier over winter. |
