

PRODUCT INFORMATION SHEET

Product Group: Hebe	Hebe Sandra Joy
Description:	Evergreen shrub with rich purple flowers to 12cm long flowering over a long period, particularly in winter. Deep green leaves contrast beautifully with its reddish brown stems.
Planting Position:	Great addition to any garden, or container. Can handle full sun to part shade in moist well drained humus rich soil. Prune lightly after flowering. Temperature Range 7°C to 37°C
Plant Size (approx):	1m high x 1m wide
Planting:	Dig a hole approximately twice the size of the container. Remove plant and place into the hole so the soil level is the same as the surrounding ground. Fill in the hole and push down firmly and water in thoroughly.
Fertilizing & Watering:	Fertilize in spring with a slow release fertilizer and water to keep moist in a pot situation.
