

PRODUCT INFORMATION SHEET

Product Group: Heuchera	Amethyst Myst (Purple Alum Root)
Description:	Clumping perennial with glossy leafed amethyst foliage with a cool fog of silver settling on leaves. Great addition to any garden. Produces multiple stems with flowers from late spring.
Planting Position:	Great addition to any garden, as a hedge, in a rockery or in a hanging basket. Prefers a shaded area but can tolerate sun in cooler climates. Thrives in moist well drained soil. Temperature Range 5° to 37°
Plant Size (approx):	25cm high x 60cm wide
Planting:	Dig a hole approximately twice the size of the container. Remove plant and place into the hole so the soil level is the same as the surrounding ground. Fill in the hole and push down firmly and water in thoroughly.
Fertilizing & Watering:	Fertilize in spring with a slow release fertilizer and water to keep moist in a pot situation.
