

PRODUCT INFORMATION SHEET

Product Group: Heucherella	Heucherella saxifragaceae Solar Eclipse
Description:	Clumping perennial has leaves of red brown bordered in lime green combined with such a beautiful habit and broadly scalloped leaf edges. Extremely vigorous, with the dark red to red brown centre lasting year round. Great addition to any garden.
Planting Position:	Great addition to any garden, as a hedge, in a rockery or in a hanging basket, or great for pots. Prefers a shaded area but can tolerate sun in cooler climates. Thrives in moist well drained soil. Temperature Range: 4°C to 30°C
Plant Size (approx):	25cm high x 40cm wide
Planting:	Dig a hole approximately twice the size of the container. Remove plant and place into the hole so the soil level is the same as the surrounding ground. Fill in the hole and push down firmly and water in thoroughly.
Fertilizing & Watering:	Fertilize in spring with a slow release fertilizer and water to keep moist in a pot situation.
