

PRODUCT INFORMATION SHEET

Product Group: Homalomena	Homalomena Maggi
Description:	An attractive, compact houseplant grown for its large glossy emerald green foliage. The heart shaped deeply ribbed leaves are borne on long stems. Tolerates low light and thrives in a warm position with high humidity.
Planting Position:	Prefers a warm position indoors with bright, indirect light. Keep away from draughts. Keep moist but not overwater. Temperature Range 10°C to 30°C
Plant Size (approx):	40cm high x 40cm wide
Planting:	Dig a hole approximately twice the size of the container. Remove plant and place into the hole so the soil level is the same as the surrounding ground. Fill in the hole and push down firmly and water in thoroughly.
Fertilizing & Watering:	Fertilize in spring with a slow release fertilizer and water to keep moist in a pot situation.
