

PRODUCT INFORMATION SHEET

Product Group: Succulent	Kalanchoe Quicksilver (Kalanchoe Pumila)
Description:	Delightful succulent plant with silver-grey fleshy leaves which are set off by lilac coloured, urn-shaped flowers produced in winter.
Planting Position:	Requires a very well drained soil and a full sun position. They are ideal for use in large tubs, arid garden beds, dry rock embankments, hanging baskets and also perfectly at home in cottage gardens. Prefer well drained soil. Temperature Range:5° to 35°
Plant Size (approx):	20cm high x 20cm wide
Planting:	Dig a hole approximately twice the size of the container. Remove plant and place into the hole so the soil level is the same as the surrounding ground. Fill in the hole and push down firmly and water in thoroughly.
Fertilizing & Watering:	Apply slow release fertilizer in spring. Will tolerate short periods of dryness. Water only when dry.
