

PRODUCT INFORMATION SHEET

Product Group: Lavender	Lavender Strawberries & Cream (Lavandula Pedunculata)
Description:	Stunning lavender that features contrasting colours of vibrant green and purple in the flower. These eye catching specimens also have aromatic foliage making great addition to any garden.
Planting Position:	Great addition to gardens as mass plantings, hedges, borders or grown in pots. Best grown in full sun to part shade. Prefers moist and well drained soil. Lightly prune after flowering to maintain shape. Protect from heavy frost. Temperature Range: 2° to 40°
Plant Size (approx):	70cm high x 70cm wide
Planting:	Dig a hole approximately twice the size of the container. Remove plant and place into the hole so the soil level is the same as the surrounding ground. Fill in the hole and push down firmly and water in thoroughly.
Fertilizing & Watering:	Fertilize in spring with a slow release fertilizer and water to keep moist in a pot situation.
