

PRODUCT INFORMATION SHEET

Product Group: Monstera	Monstera Deliciosa Tauerii
Description:	Evergreen stunning dwarf shrub is grown for its large ornamental heart shaped leaves with decorative perforations. Excellent indoor plant.
Planting Position:	Prefers bright or filtered light indoors or a warm sheltered frost free position outdoors in well drained soil. Temperature Range:5° to 30°
Plant Size (approx):	2m high x 1m wide
Planting:	Dig a hole approximately twice the size of the container. Remove plant and place into the hole so the soil level is the same as the surrounding ground. Fill in the hole and push down firmly and water in thoroughly.
Fertilizing & Watering:	Fertilize with a good quality slow release plant food two or three times a year. Keep moist in the growing season and drier in cooler weather.
