

PRODUCT INFORMATION SHEET

Product Group: Nerium	Nerium Dwarf Oleander (Mediterranean Rose)
Description:	A very hardy, drought tolerant Nerium that requires very little water once established and will grow in most soil types. Perfect for adding a splash of colour to any garden. Prune as required. Abundance of flowers during summer on lush, mid green foliage.
Planting Position:	Prefers a full sun position in garden. Will tolerate dry and coastal conditions. Temperature Range 2° to 40°
Plant Size (approx):	1.5m high x 1.5m wide
Planting:	Dig a hole approximately twice the size of the container. Remove plant and place into the hole so the soil level is the same as the surrounding ground. Fill in the hole and push down firmly and water in thoroughly.
Fertilizing & Watering:	Fertilize in spring with a slow release fertilizer and water to keep moist in a pot situation.
