

PRODUCT INFORMATION SHEET

Product Group: Pittosporum	Pittosporum Tenuifolium Golfball
Description:	Features shiny green foliage and has a self branching habit that enables it to form a great shape. Makes an ideal hedge or border as it hardy and quick growing. Has a low water requirement and forms a dense neat shape without pruning.
Planting Position:	Prefers full sun to part shade position in garden in well drained soil. Temperature Range: 5° to 35°
Plant Size (approx):	80cm wide x 80cm high
Planting:	Dig a hole approximately twice the size of the container. Remove plant and place into the hole so the soil level is the same as the surrounding ground. Fill in the hole and push down firmly and water in thoroughly.
Fertilizing & Watering:	Fertilize with quality slow release fertilizer. Low water requirement once established.
