

PRODUCT INFORMATION SHEET

Product Group: Fern	Polystichum Retroso-Paleaceum
Description:	A very hardy evergreen species which forms an attractive crown of deep, glossy green soft fronds.
Planting Position:	Best Grown in a moist, shaded position in humus rich free draining soil. Ideal for areas that suffer from extreme cold. Will grow equally well when planted in a shaded fernery or part shade garden position. Suitable for hanging baskets and pots. Temperature Range 2° to 40°
Plant Size (approx):	0.5cm high x .05cm wide
Planting:	Dig a hole approximately twice the size of the container. Remove plant and place into the hole so the soil level is the same as the surrounding ground. Fill in the hole and push down firmly and water in thoroughly.
Fertilizing & Watering:	Fertilize in spring with a slow release fertilizer and water to keep moist in a pot situation.
