

PRODUCT INFORMATION SHEET

Product Group: Fern	Pteris Cretica Rivertonia
Description:	Very decorative, easy to grow fern. An unusual cultivar with long pointed, irregular lobes on the pinnae. These lobes often have small crests on the tip.
Planting Position:	Suitable for indoor pots, or contrasting garden specimens. Plant in moist, shaded garden positions. Temperature Range 0°C to 40°C
Plant Size (approx):	30cm high x 20cm wide
Planting:	Dig a hole approximately twice the size of the container. Remove plant and place into the hole so the soil level is the same as the surrounding ground. Fill in the hole and push down firmly and water in thoroughly.
Fertilizing & Watering:	Fertilize in spring with a slow release fertilizer and water to keep moist in a pot situation.
