

PRODUCT INFORMATION SHEET

Product Group: Schefflera	Schefflera Actinophylla Alpine Junior (Umbrella Tree)
Description:	A superior form of Umbrella Tree with large, glossy, green foliage and a distinct columnar growth habit, making it ideal for growing in narrow spaces both in and outdoors. For a more bushy growth habit, pinch out uppermost shoots.
Planting Position:	Prefers a warm, sheltered site with filtered light. Keep moist but not overwater. Temperature Range 5° to 35°
Plant Size (approx):	15m high x 6m wide if planted in the ground
Planting:	Dig a hole approximately twice the size of the container. Remove plant and place into the hole so the soil level is the same as the surrounding ground. Fill in the hole and push down firmly and water in thoroughly.
Fertilizing & Watering:	Fertilize in spring with a slow release fertilizer and water to keep moist in a pot situation.
