

## PRODUCT INFORMATION SHEET

<b>Product Group:</b> Stromanthe	<b>Stromanthe Sangiunea</b>
<b>Description:</b>	A beautiful, evergreen perennial with leathery, lance-shaped leaves and purple undersides. Clusters of small, white flowers with brightly coloured red bracts appear in summer.
<b>Planting Position:</b>	Plant in a humus-rich moist, well drained soil in part shaded position. Ideal as an indoor plant in cooler climates also makes a wonderful patio plant. Temperature Range: 5°C to 30°C
<b>Plant Size (approx):</b>	1.5m high x 30 - 60cm wide
<b>Planting:</b>	Dig a hole approximately twice the size of the container. Remove plant and place into the hole so the soil level is the same as the surrounding ground. Fill in the hole and push down firmly and water in thoroughly.
<b>Fertilizing &amp; Watering:</b>	Fertilize in spring with a slow release fertilizer and water to keep moist in a pot situation.
